CTO | TECHNOLOGY, PLATFORM & PROGRAM LEADERSHIP

Master's Degree in Information Technology, **20+ years of experience**
Led strategic delivery (up to 500 engineers) within €100M+ transformation initiatives

PROFESSIONAL EXPERIENCES

- **Solution Train Engineer, SOCIETE GENERALE** March 2019+ (6y+)

  ➔ Delivery of the SG Group's global hybrid cloud & security platform
  - International multi-trains delivery (500 people, 63 teams)
  - Management of 4 RTE and leadership of the RTE community
  - Delivery efficiency improvement
  - Design and deployment of a reusable Agile at Scale toolbox

- **CIO, Chief Information Officer, FINAXYS** 2016-2019 (2y6m)

  ➔ 2 Big Data ATG, 4 Pre-Sales, CD Audit, Academy, Hackathons
  - Management of 30 people (teams, academy, vendors)
  - Technical pre-sales and delivery of committed projects
  - Leadership of academy, KM & events for 350 people

- **CTO, Chief Technical Officer, MERITIS** 2016 (7m)

  ➔ Corporate learning platform, 10+ events
  - Creation of a corporate learning platform (LCMS, LMS) for 220 people

- **DIRECTOR OF DEVELOPMENT, SQUARE-IT** 2013-2015 (2y7m)

  ➔ Delivered 9 products from prototype to production
  - Management of a 9 people team and 9 projects
  - Clients: Old El Paso, Coca Cola Fanta, Phenix, EqoSphere, …
  - Environment: C#, ASP .NET MVC, Entity Framework, SCRUM

- **PROJECT MANAGER, VEOLIA PROPRETE** 2010-2013 (2y7m)

  ➔ Version 1 delivered and still operational in production
  - Management of a 12 people team
  - Project: Web-based ERP dev for the management of 80 companies
  - Environment: C#, ASP.NET MVC, NHibernate, SCRUM

- **SOFTWARE ENGINEER, SG CIB** 2009-2010 (1y3m)

  ➔ Management of proprietary OLAP access rights in production
  - Partial management of an offshore team in India of 5 people
  - Environment: C#, Excel, SSIS, SSAS, SQL Server

- **IT QUANT/COMMANDO, NATIXIS CIB** 2004-2008 (4y2m)

  ➔ More than 50 software components delivered to production
  - Front Office Derivatives Equity (Paris) and Commodities (London)
  - Environment: C#, Excel, VBA, Sophis Risque, C++, Grid

DIPLOMAS AND CERTIFICATIONS

- **Agile SPC SAFe Program Consultant Certification** **2020**
- Agile Scrum Master Certification (Jeff Sutherland) 2011
- **EPITECH — Master's Degree in Information Technology** **2004**
- Mathematics specialized Scientific Baccalaureate

KEY EXPERTISE

Strategic and technical areas consistently demonstrated across senior leadership roles.

Leadership & Governance

- Organization scaling
- Agile-at-Scale transformation
- Program governance
- Executive communication
- Hiring & evaluation

Technology

- Cloud platform engineering (private cloud, Azure, AWS)
- Scalable architectures & CI/CD
- C#/.NET & distributed systems

ADDITIONAL ACHIEVEMENTS

- Top 0,3% on codingame.com
- Algorithms and AI contests
- EPITECH Promo 2004 Vice Major
- EPITECH 4th year Major
- Trainer in C#/.NET, algo and AI
- Technological & Trends monitoring

EXECUTIVE PROFILE

TECHNOLOGY LEADERSHIP SUMMARY

CTO-level leader with 20+ years of experience scaling digital platforms, structuring engineering organizations, and accelerating delivery. Led Société Générale's hybrid cloud rollout, delivered by a 500-person organization (63 teams) and serving tens of thousands of users across the Group. Former CTO & CIO in high-growth contexts.

STRATEGIC LEADERSHIP

- Platform strategy & technology roadmap
- Agile-at-Scale rollout (value streams, governance, delivery leadership)
- Build vs Buy decisions & vendor steering
- Cybersecurity & operational compliance alignment
- Senior leadership roles within €100M+ cumulative programs
- Talent development, academies & learning systems

BUSINESS OUTCOMES

✓ Scaled a cloud platform across hundreds of business and service units
✓ Delivered multiple productized solutions across key industries
✓ ERP deployed for 80 subsidiaries (still operational today)
✓ Led multiple complex pre-sales initiatives
✓ Built a hands-on technology academy for final-year students
✓ Digital university deployed for 200+ engineers

OPERATING STYLE

- Outcome-driven decisions (KPIs, results, impact)
- Structured release governance & product lifecycle management
- Clear prioritization and risk transparency
- High-empowerment culture with ownership mindset

CORE EXPERTISE

- Hybrid Cloud & platform foundations (Azure, private cloud)
- Distributed architectures & CI/CD scaling
- AI-enabled analytics and automation
- Secure multi-tenant data platforms
- High-volume telemetry & connected systems
- C#/.NET ecosystems & data-intensive systems

ROLE VALUE PROPOSITION

I bring clarity, prioritization and scalable technology execution.
I build platforms that simplify delivery, reduce operational risk, and enable business acceleration—not dependency.

Available for leadership of scaling product engineering organizations, platform strategy, and transformational technology programs.
